PROFILE

Frontend Developer with hands-on experience contributing to national digital platforms under the Ministry of Posts and Telecommunications. Strong foundation in ICT, structured frontend architecture, and scalable system design, with experience in QA validation and bilingual digital content refinement

WORK EXPERIENCE

Children's Surgical Centre (CSC)

Social Media & Website Officer | 2023 – 2025

- Managed CSC's donor website and published regular patient stories to encourage public engagement and transparency.
- Organized and presented surgical funding campaigns to help patients receive financial support.
- Wrote and edited bilingual (Khmer/English) web content for clarity and donor impact.

Kakvei

Data Organizer | 2023 – 2025

- Organized and verified Khmer language datasets for AI development.
- Ensured data accuracy and consistency to support language model training.

Ministry of Post and Telecommunication

Front-End Developer & UX/UI Designer | 2023 – Present

- Designed and developed responsive government platforms including EventKH, DSDP, and Chaktomuk Digital Workspace.
- Led the redesign of the Rachana Government Design System, improving interface consistency, responsive layouts, and accessibility across ministries.
- Created reusable Figma components and UI guidelines to ensure a unified government digital identity.
- Built and maintained web components using AstroJS, Tailwind CSS, and Next.js.
- Collaborated closely with developers and content teams to deliver clear, user-friendly public platforms.
